### **CLOCK RESTORATION PROJECT MOVES FORWARD**

After plenty of time and hard work the Clock Restoration Committee has made a decision regarding the vendor who will be completing the restoration project. Verdin Clock Company based out of Cincinnati Ohio will be completing the restoration. The mechanics of the clock will be moved to the base for ease of repairs and access without the use of a ladder. Representatives from Verdin will come to Selinsgrove to dismantle the clock and transport it back to their facility for repairs and improvements. We eagerly anticipate the completion of this project!
